Seldom does one find a collection of suits that so perfectly follow late imports—revealing the unmistakable touch of French creativeness in their every line.

Many of the models are quite versatile as to their collars, for they may be worn open or closed (as pictured), and with or without the belt. In either case the lines are slenderizing and never fail to idealize the figure in true Parisian fashion.

The materials are of superb quality, every fashionable shade is represented, and the sizes range from 34 to 44. Two styles pictured.
